

Technical Data Sheet

Rheology additives KY-2020

Physicochemical indexes

Product appearance:	Cloudy liquid
Main ingredient:	polyurethane
Active content:	20%
Ionicity:	nonionic
Specific gravity:	1.00-1.10g/ml (20℃)
Viscosity:	3550 Mpa.s (25℃)

Performance feature

- ◆ Good brush feel, excellent anti-roll spatter;
- ◆ Good water resistance, alkali resistance, scrub resistance, corrosion resistance, water resistance, etc.;
- ◆ Good flow, leveling performance and hiding effect, uniform film thickness and fullness of the film;
- ◆ Good compatibility, no need to dilute before use, no need for alkali neutralization;
- ◆ Can be used in a wide pH range;
- ◆ It does not contain harmful ingredients such as organic solvents, organic tin and inorganic heavy metals.

Usage and dosage

The recommended addition amount is 0.2-1.0% of the total formula. ◦

Packing, storage and transportation

25KG plastic drum; The product has a warranty of 24 months (from the date of production) when it is in an unopened original container and stored at temperatures between -5℃ and +40℃.

The introduction of the product is based on our experiments and techniques, and is for reference only, and may vary for different users.
